Quarterly Meeting

December 10, 2008

10:00am

Fordville, ND

Attention Presenters!

OLI Requiring New Continuing Ed. Test

Don't worry!

It's very simple and quick!

After you complete this quiz, you will be automatically entered into OLI's updated presenter database.

An email will be sent to your State Coordinator alerting them that you have completed the

Continuing Education Tool.

Just follow these links to the quiz:

<http://www.oli.org>

Presenter Continuing Education Test

FRA Demographic Report

Profile of the "Average" Trespasser

The Federal Railroad Administration report contains three years of reported trespasser fatalities. From this they developed a profile of the "average" trespasser. Based on the information collected from those who participated in the survey, the average trespasser is a 38-year-old Caucasian male under the influence of alcohol or drugs, with a median household income of \$36,000.

The FRA provides a state-by-state breakdown on their website for states to do further research to better target their demographic.

The report is available at http://www.fra.dot.gov/downloads/safety/tdreport_final.pdf
