

Presentation Reporting Guide

Operation Lifesaver has initiated an online Presenter Reporting system through the www.oli.org website, so that presenters can submit their own presentation reports online. One of the benefits of the new system is that state coordinators can review the reports quickly and easily. It is also intended to help with the end-of-the-year reporting of OLI for State coordinators.

Presenters access the reporting online function by:

1. Going to www.oli.org
2. Clicking on "presenters" and choosing "presenter reporting" from drop-down menu (they can also click "OL community" at the top of any oli.org website page, logging in with their name and password, and then choosing "presenter's reporting" from the menu links)
3. At the page titled "submit your presenter report," login with your cert # or create a profile, then
4. Follow the instructions to submit your presentation report.

Your State Coordinator will get a copy of your reports as submitted. If you should have any questions, please do not hesitate to contact your State Coordinator, Serena Schmit at 701-223-6372 or by email at SerenaS@ndsc.org.
