Online Flagger Training

www.ndflaggertraining.com

This course is recommended for any persons required to perform flagger duties and persons involved in the direct/indirect supervision of flaggers in North Dakota. Course covers hands-on procedures, flagger job overview, proper clothing and use of tools, as well as flagging at intersections, flagger conduct and a final exam including 25 questions. A 75% will be required to pass. Students can print out a course certificate upon passing the exam.

Log onto www.ndsc.org or www.ndflaggertraining.com to take the course.

Emergency Preparedness in Remote Work Zones

8 hour classroom course

Minot – February 22, 8 am to 5 pm, Holiday Inn

Bismarck – February 23, 8 am to 5 pm, NDSC Energy Room

Fargo – February 24, 8 am to 5 pm, Holiday Inn

Also available as a private course for your company - must register a minimum of 10.

This course involves hands-on training to prepare construction workers and supervisors how to handle an emergency in a remote work zone. The course will account for all hazards – both man-made and natural. Students will learn to plan in advance to manage any emergency situation. They will be taught how to assess the situation, use common sense and available resources to take care of themselves, co-workers and the recovery of their business. Participants will gain understanding of what to expect in any remote work zone situation.

Traffic Control for Construction Workers

8 hour classroom course

Bismarck – March 22, 8 am to 5 pm, NDSC Energy Room

Minot - April 5, 8 am to 5 pm, Holiday Inn

Fargo - April 11, 8 am to 5 pm, Holiday Inn

Also available as a private course for your company - must register a minimum of 10.

This course is for those individuals involved in street and highway work expected to provide a safe work zone for their company and the traveling public. This course will give participants knowledge in the process of installing, maintaining, and monitoring work zone traffic control. Students will learn how to set up temporary work zones and plan work zones, traffic patterns, and pedestrian patterns. Each participant will be required to learn how and where to access information from the Manual on Uniform Traffic Control Devices (MUTCD). Students will be issued the MUTCD 2003 Edition Parts 1, 5 and 6 (or most current edition), the Guidelines for Work Zone Safety for Utilities Handbook, as well as a One-Call Handbook.

Work Zone Safety

8 hour classroom course

Fargo – March 15, 8 am to 5 pm, Holiday Inn

Bismarck - April 12, 8 am to 5 pm, NDSC Energy Room

Minot - April 14, 8 am to 5 pm, Holiday Inn

Also available as a private course for your company - must register a minimum of 10.

This class is recommended for anyone required to drive, inspect or work in construction work zones on our streets and highways. Course will focus on the inspection, maintenance and safe operation of vehicles and heavy equipment, and other work zone hazards including trenching or working from heights, electrical, hazardous materials, proper personal protective equipment for worker visibility and safety, and hazards associated with night and shift work. Course will include class discussion of real work zone incidents.

Traffic Control for Supervisors

16 hour classroom course

Bismarck – March 2 thru 3, 8 am to 5 pm, NDSC Energy Room

Fargo – April 5 thru 6, 8 am to 5 pm, Fargo Best Western Doublewood

Also available as a private course for your company - must register a minimum of 10.

The course is for those construction supervisors involved in street and highway work expected to provide a safe work zone for their employees, their company and the traveling public. This course will give participants a more in-depth knowledge of the entire process of planning, designing, installing, maintaining, and monitoring work zone traffic control. It will include temporary work zones, planning work zones, traffic patterns, and pedestrian patterns. This course meets the North Dakota Department of Transportation specifications and provides students an opportunity to understand the industry standards for maintaining traffic through a work zone. Each participant will be required to learn how and where to access information from the MUTCD.

Students will be issued the MUTCD 2003 Edition Parts 1, 5 and 6 (or most current edition), the Guidelines for Work Zone Safety for Utilities Handbook, as well as a One-Call Handbook.

To register or arrange a private class, call the North Dakota Safety Council at 701-223-6372 or 800-932-8890
