

FREE SAFETY TRAINING

For those involved in the **Road Construction Industry**

Request this training as a private course for your business.

We'll train groups of 10+ at your location so you can avoid time out of the office and travel expenses.

Work Zone Safety

8 hour classroom course

This class is recommended for anyone required to drive, inspect or work in construction work zones on our streets and highways. Course will include class discussion of real incidents of work zone accidents.

Traffic Control for Construction Workers

8 hour classroom course

This course is for those individuals involved in street and highway work expected to provide a safe work zone for their company and the traveling public. This course will give participants knowledge in the process of installing, maintaining, and monitoring work zone traffic control.

Emergency Preparedness in Remote Work Zones

8 hour classroom course

This course involves hands-on training to prepare construction workers and supervisors how to handle an emergency in a remote work zone. The course will account for all hazards – both man-made and natural.

Traffic Control for Supervisors

16 hour classroom course

The course is for those construction supervisors involved in street and highway work expected to provide a safe work zone for their employees, their company and the traveling public. This course will give participants a more in-depth knowledge of the entire process of planning, designing, installing, maintaining, and monitoring work zone traffic control.

Online Flagger Training

This course is recommended for any persons required to perform flagger duties and persons involved in the direct/indirect supervision of flaggers in North Dakota.

Send all flaggers through this course at www.ndflaggertraining.com
