

Safe Drivers = Savings

You could save a life, save a little cash, and save yourself the headache of dealing with lost work time and insurance claims...

Contact a representative of Workforce Safety & Insurance to discuss steps 1, 2 and 3.

701-328-7227

Here's where we come in!

Contact the North Dakota Safety Council to discuss step 4.

701-751-6106

If your company is medium or large in size, you could really benefit from the Workforce Safety & Insurance Safe Driver Program.

The Safe Driver Program is designed to help employers establish, implement, and enforce safe driving habits for all their employees who operate personal or company vehicles for business.

Those who successfully complete all the program requirements will receive a 5% premium discount from WSI!

Here's how the program works:

- 1) Make application for the Safe Driver Program before the beginning of the premium period
- 2) Implement a Safe Driver Policy
- 3) Have a comprehensive Vehicle Maintenance Program in place
- 4) Complete one of the WSI approved driver training programs**

The North Dakota Safety Council offers many WSI approved driver training programs.

- Defensive Driving Course (DDC-4) - 4-hour classroom
- Defensive Driving Course Online - 4-hour online
- Professional Truck Driver Course - DDC-4 for semi truck drivers
- Defensive Driving Course - Self Study
- Professional Truck Driver - Defensive Driving Course - Self Study

To learn more about each course, log on to www.ndsc.org or call the NDSC.
