

Safety Director Opening

A reputable, multi generation North Dakota based contractor has an opening for a safety director. The safety director is responsible for ensuring the safety of the workplace. The director accomplishes that by coordinating, administering and implementing comprehensive training programs in occupational, industrial and environmental safety. The safety director will respond to reported accidents to evaluate current best practices and recommend changes where necessary.

The candidate should demonstrate a working knowledge of safety rules and regulations at all levels of government. The candidate should also show an ability, through demonstrated experience, to accomplish the following: conduct safety audits and inspections to ensure compliance with safety requirements; develop, implement and maintain employee training programs; establish and maintain complete safety and training records; and develop, update and manage workplace safety programs, procedures and policies.

Company provides competitive salary and benefits. The position is based in southwest North Dakota and is a great opportunity for a career minded safety professional. Please email interest and personal information to bb10516@gmail.com by July 25, 2011.
