## Flagger Training

*2 hour online or CD/DVD course*

This course is recommended for any persons required to perform flagger duties and persons involved in the direct/indirect supervision of flaggers in North Dakota. Course covers hands-on procedures, flagger job overview, proper clothing and use of tools, as well as flagging at intersections, flagger conduct and a final exam including 25 questions. A 75% will be required to pass. Students can receive a copy of the DVD or CD along with the North Dakota Flagger Handbook upon completion of the course.

***This training will be available online in 2010. Please check the NDSC website for more information.***

## Work Zone Safety

*8 hour classroom course*

**Minot – February 23, 8 am to 5 pm, Holiday Inn**

**Fargo – March 10, 8 am to 5 pm, Holiday Inn**

**Bismarck – April 20, 8 am to 5 pm, NDSC Energy Room**

This class is recommended for anyone required to drive, inspect or work in construction work zones on our streets and highways. Course will focus on the inspection, maintenance and safe operation of vehicles and heavy equipment, and other work zone hazards including trenching or working from heights, electrical, hazardous materials, proper personal protective equipment for worker visibility and safety, and hazards associated with night and shift work. Course will include class discussion of real incidents of work zone accidents.

## Traffic Control for Supervisors

*16 hour classroom course*

**Bismarck – January 18 and 19, 8 am to 5 pm, NDSC Energy Room**

**Fargo – January 25 and 26, 8 am to 5 pm, Holiday Inn**

The course is for those construction supervisors involved in street and highway work expected to provide a safe work zone for their employees, their company and the traveling public. This course will give participants a more in-depth knowledge of the entire process of planning, designing, installing, maintaining, and monitoring work zone traffic control. It will include temporary work zones, planning work zones, traffic patterns, and pedestrian patterns. This course meets the North Dakota Department of Transportation specifications and provides students an opportunity to understand the industry standards for maintaining traffic through a work zone. Each participant will be required to learn how and where to access information from the MUTCD.

Students will be issued the MUTCD 2003 Edition Parts 1, 5 and 6 (or most current edition), the Guidelines for Work Zone Safety for Utilities Handbook, as well as a One-Call Handbook.

## Traffic Control for Construction Workers

*8 hour classroom course*

**Fargo – February 10, 8 am to 5 pm, Holiday Inn**

**Bismarck – March 16, 8 am to 5 pm, NDSC Energy Room**

**Minot – April 6, 8 am to 5 pm, Holiday Inn**

This course is for those individuals involved in street and highway work expected to provide a safe work zone for their company and the traveling public. This course will give participants knowledge in the process of installing, maintaining, and monitoring work zone traffic control. Students will learn how to set up temporary work zones and plan work zones, traffic patterns, and pedestrian patterns. Each participant will be required to learn how and where to access information from the Manual on Uniform Traffic Control Devices (MUTCD). Students will be issued the MUTCD 2003 Edition Parts 1, 5 and 6 (or most current edition), the Guidelines for Work Zone Safety for Utilities Handbook, as well as a One-Call Handbook.

## Emergency Preparedness in Remote Work Zones

*8 hour classroom course*

**Bismarck – February 15, 8 am to 5 pm, NDSC Energy Room**

**Minot – March 22, 8 am to 5 pm, Holiday Inn**

**Fargo – April 7, 8 am to 5 pm, Holiday Inn**

This course involves hands-on training to prepare construction workers and supervisors how to handle an emergency in a remote work zone. The course will account for all hazards – both man-made and natural. Students will learn to plan in advance to manage any emergency situation. They will be taught how to assess the situation, use common sense and available resources to take care of themselves, co-workers and the recovery of their business. Participants will gain understanding of what to expect in any remote work zone situation.

***To register for one of these courses call the  
North Dakota Safety Council Office at  
701-223-6372 or 800-932-8890***
