QSM

QUALITY SAFETY MANAGEMENT

A comprehensive safety management program designed to fit your needs, provided by the

ND+SC
NORTH DAKOTA SAFETY COUNCIL

The North Dakota Safety Council's brand new Quality Safety Management program is specifically geared to your company, and is based on your safety needs and goals.

Never again will you have to worry about expired certifications, new legislation, course scheduling or employee turnover. We'll help you work toward compliance and provide a total solution for all your safety needs. For a fixed monthly charge you can put your safety management into our hands.

Four Simple Steps

- 1** One of our Safety Consultants will visit your site and perform a complete safety needs assessment.
- 2** We'll provide you with a complete overview of your assessment, a list of required and recommended safety needs and a proposal designed to help you meet your safety goals.
- 3** Once your contract is confirmed we'll work with you to arrange your safety training and ongoing consultations.
- 4** We will keep track of all your employees' training and let you know when their certifications require renewal.

With Quality Safety Management, it's that simple.

To learn more or request a consultation, call Tyler Svihovec at 751-6108 or Chuck Clairmont at 751-6101.

If your company does not currently have a safety professional on staff, or you desire additional safety expertise, call on our experts to help you meet your safety needs.

Overall Course Offerings

Accident Investigation

Course Length: 4 hours

Member: \$95.00 Non-Member: \$115.00

Accident Investigation is key in establishing a workplace that is safe and productive. Learn how to properly respond to a workplace accident with an investigation that looks toward the real reason an employee was injured and how to prevent it from happening again. The real causes of injuries are not always what they first appear to be.

Bloodborne Pathogens

Course Length: 2 hours

Member: \$35.00 Non-Member: \$45.00

(Must meet minimum registration for classes to be held, dependent upon location)

(29 CFR 1910.1030) requires employers to safeguard employees who face potential occupational exposure to blood or other potentially infectious materials. The National Safety Council's Bloodborne and Airborne Pathogens course helps reduce these risks by focusing on how to protect employees from blood and airborne pathogens and what to do if an exposure occurs. This program is ideal for first responders, dentists, dental hygienists, lab workers, police, EMTs and paramedics, animal handlers and custodians — anyone exposed to blood or other potentially infectious materials can benefit from this resource.

Compressed Gas

Course Length: 2 hours

Member: \$55.00 Non-Member: \$75.00

This two hour course will cover OSHA's storage, handling, and safe usage of compressed gasses.

Conducting Effective Safety Inspections

Course Length: 2 hours

Member: \$55.00 Non-Member: \$75.00

Regular inspections are an essential element in a systematic approach to workplace safety and health. This training is intended for persons who are currently conducting or will be performing regular workplace inspections.

Conducting Effective Safety Presentations

Course Length: 2 hours

Member: \$55.00 Non-Member: \$75.00

Learn how to minimize anxiety when approaching safety training. Attendees will learn what it takes to deliver an effective message and increase the impact the message will make. The class will also address public speaking. Attendees will be given a topic, a short period of time to prepare and then asked to make a three minute presentation in front of the class.

Confined Spaces

Course Length: 4 hours

Member: \$120.00 Non-Member: \$150.00

The Confined Spaces Compliance Training program is designed to help you understand key elements of the confined spaces regulation issued by OSHA.

CPR/AED

Course Length: 2.5 hours

Member: \$38.00 Non-Member: \$45.00

(Must meet minimum registration for classes to be held, dependent upon location)

This course prepares the layperson to be an emergency responder for choking, breathing and cardiac emergencies. You'll learn basic life support for adults, children and infants as well as proper AED use.

CPR/AED/First Aid

Course Length: 4 hours

Member: \$72.00 Non-Member: \$77.00

This course prepares the layperson to be an emergency responder for choking, breathing and cardiac emergencies. You'll learn basic life support for adults, children and infants as well as proper AED use. The first aid portion of the course trains employees on bleeding control, injuries, wound care, burns, poisons and sudden illness. Students learn to recognize these everyday emergency situations and take appropriate action until professional help arrives.

Qualifies as a required course for the Master of Safety Certificate!

CPR/AED/First Aid, Online

Course Length: online at your own pace - \$19.95 online fee

Skills Test Fee - Member: \$30.00 Non-Member: \$35.00

This is an affordable, convenient way to learn lifesaving skills at your own pace 24/7 from any computer with an internet connection. Online course content covers all elements in our Standard First Aid, CPR, and AED program described on page three, and follows the most recent CPR and ECC Guidelines and OSHA Standards. **A bookmark feature allows you to save your place in the program when needed, then come back later to finish.** Even if you've completed emergency care training, this online program is an excellent refresher tool to keep your skills sharp.

Skills Testing: This online program teaches the knowledge portion of the course, clearly presenting learning points using animation, full-motion video, interactive user exercises and real-world simulations.

Course is taken online. Call Kevin at 701-751-6107 to register.

Qualifies as a required course for the Master of Safety Certificate!

CPR/First Aid Course, Train-the-Trainer

Course Length: 16 hours

Member: \$350.00 Non-Member: \$400.00

Strengthen your emergency response program by building your employees' First Aid/CPR/AED skills and enhance your in-house training capabilities by sending a staff member through our Train-the-Trainer course. They'll be certified to conduct First Aid/CPR/AED training for all of your employees, with a program that meets and exceeds the American Heart Association guidelines. And while prices everywhere are skyrocketing, we're holding the line on tuition.

Qualifies as a required course for the Master of Safety Certificate!

Defensive Driving Course, Alive at 25

Course Length: 4 hours

Course Fee: \$45.00

Vehicle crashes are the number one cause of death for people between the ages of 14 and 24. This highly interactive four-hour course is used to reduce traffic crashes, fatalities and general

Qualifies as a required course for the Master of Safety Certificate!

violations by encouraging young drivers between ages 14 and 24 to take responsibility for their driving behavior.

Defensive Driving Courses are taught at different locations than other training courses listed in this calendar. Please log onto www.ndsc.org and click on Alive at 25 icon to search course locations or to register.

Defensive Driving Course, Basic

Course Length: 4 hours

Member: \$40.00 Non-Member: \$45.00

DDC4 is a fast-paced, driver improvement program that offers practical strategies to reduce collision-related injuries, fatalities, and costs. It addresses the importance of attitude in preventing accidents, and reinforces the good driving skills you already have. Most importantly, DDC4 shows the consequences of the choices you make behind the wheel, and puts defensive driving in a personal context.

Qualifies as

Master of Safety
Certificate!

Defensive Driving Courses are taught at different locations than other training courses listed in this calendar. Please log onto www.ndsc.org and click on Training Calendar/Defensive Driving to view course locations.

Defensive Driving Course, Online

Course Length: Approximately 4 hours

Member: \$42 Non-Member: \$52 ~ Discounts for groups

Defensive driver training just got easier and more engaging. Now based on the updated 8-hour Defensive Driving Course (DDC) – 8th Edition, DDC Online is better than ever! Get the same quality content as our DDC 8-hour classroom program, but at a fraction of the cost and time. It's flexible. Train any size group - even drivers at remote locations, at their own pace, anywhere a PC and an Internet connection are available – even in the comfort of their home!

Course is taken online. Call NDSC at 701-223-6372 to register.

Defensive Driving Course, Train-the-Trainer

Course Length: 16 hours

Member: \$350.00 Non-Member: \$400.00

During this 2-day instructor development course, you'll gain the confidence to be an effective trainer for the basic 4-hour defensive driving course. This instructor course features updated curriculum and facilitation methods and allows the instructor to confidently adapt his or her teaching style to meet the unique needs and characteristics of the audience. Let our experienced trainers provide you with the tools and knowledge to become an excellent trainer.

Master of Safety
Certificate!

Defensive Driving Courses are taught at different locations than other training courses listed in this calendar. Please log onto www.ndsc.org and click on Training Calendar/Defensive Driving to view course locations.

Defensive Driving Course, Professional Truck Driver

Course Length: Approximately 4 hours

Member: \$50 Non-Member: \$63 ~ Discounts for groups

The Defensive Driving Course for Professional Truck Drivers is

an online course that uses state-of-the-art animation, clear narration and interactive screens to teach defensive driving. This Internet-based training is a convenient alternative to our classroom course while providing the proven techniques for avoiding costly and deadly collisions. Participants can train at their own pace, even in the comfort of their own home or vehicle. The bookmark feature allows them to return and review any portion of the program before taking the open-book test. Grading and certificate issuance are immediate and the course is approved in ND for an insurance discount. Online management reduces recordkeeping efforts and administrative costs even further. **Course is taken online. Call NDSC at 701-223-6372 to register.**

Electrical Safety Compliance

Course Length: 4 hours

Member: \$120.00 Non-Member: \$150.00

The Electrical Safety Compliance Training program is designed to help you understand key elements of the electrical safety regulation issued by OSHA. Attendees will develop the knowledge and skills to: understand key elements of the OSHA Electrical Safety regulation; recognize and correctly use key terms and concepts relating to electrical safety; recognize the importance of electrical safety-related work practices; differentiate between qualified and unqualified workers in order to identify appropriate training and protection requirements; identify key elements of a periodic inspection of the energy control procedure; identify the four main types of electrical injuries; identify practices and procedures to protect employees who work on or near electrical conductors and equipment from the electrical hazards associated with this type of work.

Ergonomics in the Office

Course Length: 2 hours

Member: \$55.00 Non-Member: \$75.00

This course is geared toward office ergonomics and its basic principles. Attendees will learn to recognize the signs and symptoms of ergonomic related injuries and how to properly set up or adjust a workstation. Handouts related to office ergonomic guidelines will be provided along with additional information on self assessing your work environment.

Fall Protection - Construction

Course Length: 4 hours

Member: \$95.00 Non-Member: \$115.00

Knowing when fall protection is necessary and when it's not can be confusing. This program will help to eliminate some of the confusion by giving you an overview of fall protection requirements for the construction industry, as well as requirements for steel erection and equipment used to elevate personnel.

First Aid

Course Length: 2.5 hours

Member: \$38.00 Non-Member: \$45.00

This first aid course trains employees on bleeding control, injuries, wound care, burns, poisons and sudden illness. Students learn to recognize these everyday emergency situations and take appropriate action until professional help arrives.

First Responder Skills in Action

Course Length: 46 hours

Member: \$250.00 Non-Member: \$300.00

This course is the most authoritative first responder emergency care training available today. It meets and exceeds U.S. Department of Transportation National First Responder Curriculum requirements. First Responder teaches the latest CPR and ECC guidelines using a combination of instructor, Video-Self-Instruction (VSI) and hands-on training. It's ideal for emergency response teams, safety personnel, fire, police, ambulance personnel, EMS professionals and healthcare providers.

Course Content:

- NSC Basic Life Support (BLS) Healthcare and Professional Rescuers CPR
- Assisting with childbirth
- Managing muscle, bone, head and spine injuries
- Mass casualty incidents and triage

Forklift Operator Training-Subpart N 1910.178

Course Length: 4 hours

Member: \$120.00 Non-Member: \$150.00

Designed to meet OSHA formal instruction training requirements for operators of powered industrial trucks, this course includes safe operation, maintenance, protection of personnel, load center, unloading and loading of trucks, intersections and more. It is classroom content only and does not include operation certification.

Forklift Train-the-Trainer-Subpart N 1910.178

Course Length: 8 hours

Member: \$190.00 Non-Member: \$230.00

This course is designed for the person who will be responsible for training the powered industrial truck operators for their facility. Each student will have an opportunity to actually help prepare and present a short forklift topic and receive feedback.

Hazard Awareness

Course Length: 4 hours

Member: \$95.00 Non-Member: \$115.00

This course is designed to help employers and workers identify possible safety and health hazards in their workplace, and to direct users to OSHA standards addressing those hazards.

Hazard Communications- 2 hour

Course Length: 2 hours

Member: \$55.00 Non-Member: \$75.00

This course describes the basics of setting up a hazard communication program, the requirements of labeling hazardous chemicals, and Material Safety Data sheets (MSDS).

Hazard Communications - 4 hour

Course Length: 4 hours

Member: \$95.00 Non-Member: \$115.00

This course covers OSHA Hazard Communication Standard 1910.1200 Subpart Z, setting up a hazard communication program, labeling hazardous chemicals, and Material Safety Data sheets (MSDS).

Hazmat

Course Length: 3 hours

Member: \$75 Non-Member: \$90

Current U.S. Department of Transportation (DOT) regulations require initial and recurrent training of all employees who perform work functions covered by the Hazardous Materials Regulations (HMR; 49 CFR Parts 171-180). Any employee whose work directly affects hazardous materials transportation safety is required to have training. This course will provide you with the necessary information to comply with the safety transportation of hazardous material.

Hearing Conservation

Course Length: 2 hours

Member: \$55.00 Non-Member: \$75.00

This course is intended for employers and employees alike. It is a comprehensive program that is designed to teach you the basics of a great hearing conservation program. You will learn why you need to have a hearing conservation plan and what is required to be included in the plan by both OSHA and MSHA. Topics include monitoring, employee notification, observation, hearing testing, hearing protection, training, and recordkeeping.

Job Hazard Analysis

Course Length: 2 hours

Member: \$55.00 Non-Member: \$75.00

One way to increase the knowledge of hazards in the workplace is to conduct a job hazard analysis on individual tasks. This procedure helps integrate accepted safety and health principles and practices into a particular operation. Each basic step of the job is examined to identify potential hazards and to determine the safest way to do the job.

Ladder & Stairway Safety

Course Length: 2 hours

Member: \$55.00 Non-Member: \$75.00

Stairways and ladders are a major source of injuries and fatalities among construction workers. OSHA estimates that there are 24,882 injuries and as many as 36 fatalities per year due to falls from stairways and ladders used in construction. Nearly half of these injuries are serious enough to require time off the job--11,570 lost workday injuries and 13,312 non-lost workday injuries occur annually due to falls from stairways and ladders used in construction. This course will discuss the safe use of ladders and stairways based on OSHA standard Subpart X.

Lockout/Tagout

Course Length: 4 hours

Member: \$120.00 Non-Member: \$150.00

The Lockout/Tagout Compliance training program is designed to help you understand key elements of the lockout/tagout regulation issued by OSHA.

Machine Guarding

Course Length: 2 hours

Member: \$55.00 Non-Member: \$75.00

This two hour course will cover OSHA's requirements on machine guarding.

Managing/Leading Safety in Your Workplace

Course Length: 4 hours

Member: \$95.00 Non-Member: \$115.00

This course is targeted for front-line supervisors as they deal with the daily challenges of managing production, quality and safety. This program reinforces the importance of creating a system of accountability so safety has the same level of importance as production and quality. Learn how to define the safe work practices you expect and then hold the employees accountable. Three workbooks are included in the cost of the course.

Mine Foreman Prep Class

Course Length: 4 hours

Member: \$90 Non-Member: \$105

This course is designed for people wishing to take the Mine Foreman Certification test administered by the NDSC. It covers the many roles and responsibilities of supervisors on a mine site, as well as Part 47 (Hazard Communication), Part 48 (Training Standards), Part 50 (Accident Reporting), Part 62 (Occupational Noise Exposure), and Part 77 (Mandatory Safety Standards for Surface Coal Mines). Participants will receive a handout including all CFR parts covered.

MSHA New Miner-Part 46 Sand & Gravel

Course Length: 24 hours

Member: \$225.00 Non-Member: \$225.00

This 3-day initial training is required for all new and inexperienced sand and gravel miners.

MSHA Refresher-Part 46 Sand & Gravel

Course Length: 8 hours

Member: \$85.00 Non-Member: \$85.00

This annual refresher course is required for all experienced sand and gravel Miners.

MSHA New Miner-Part 48 Surface Coal

Course Length: 24 hours

Member: \$225.00 Non-Member: \$225.00

This 3-day initial training is required for all new and inexperienced surface coal miners.

MSHA Refresher-Part 48 Surface Coal

Course Length: 8 hours

Member: \$85.00 Non-Member: \$85.00

This annual refresher course is required for all experienced surface coal miners.

OSHA 10-Hour Construction Course (ECCS)

Course Length: 10 hours

Member: \$175.00 Non-Member: \$225.00

This program provides instruction on construction industry safety and health topics and OSHA standards for both employee and entry level supervisors. Using OSHA standards as a guide, special emphasis is placed upon the most hazardous areas of a jobsite. Topics include material handling, excavation, fall protection, cranes, electrical, OSHA Act, hearing conservation, PPE and more.

OSHA 10-Hour General Industry

Course Length: 10 hours

Member: \$175.00 Non-Member: \$225.00

This course, regarding safety and health topics and OSHA standards, is valuable for employees and supervisors alike. Course includes an introduction to OSHA standards, inspections process and citations. Recordkeeping, walking and working surfaces, degrees, fire protection, electrical, machine guarding and several other subjects will be covered.

OSHA 30-Hour Construction

Course Length: 30 hours

Member: \$695.00 Non-Member: \$900.00

This course is a comprehensive safety program designed for anyone involved in the construction industry. Specifically devised for safety directors, foremen, and field supervisors, the program provides complete information on OSHA compliance issues.

OSHA 30-Hour General Industry

Course Length: 30 hours

Member: \$695.00 Non-Member: \$900.00

This course is a comprehensive safety program designed for anyone involved in general industry. Specifically devised for safety directors, foremen, and field supervisors, the program provides complete information on OSHA compliance issues.

OSHA Recordkeeping

Course Length: 4 hours

Member: \$95.00 Non-Member: \$115.00

This recordkeeping class uses workshops to teach how to properly prepare and maintain required records of workplace injuries and illnesses - using the revised OSHA 300 Log and Supplemental Record. Participants will learn how to figure incidence rates, average employment, and hours worked, as well as new recordkeeping procedures and interpretations.

Prescription for the Flu

Course Length: 3 hours

Member: \$ 25 Non-Member: \$30

The National Safety Council developed this two-hour program based on the latest OSHA Guidance document (#3327-02N 2007) on preparing workplaces for an influenza pandemic. The course is intended for employees, educational institution administrators, faculty and students, community members and anyone who may be affected by an influenza pandemic.

Course Content:

This program is administered in two parts. Part one helps management understand how an influenza pandemic might affect their business and how to plan for a potential outbreak. Part two trains employees to prevent a flu outbreak, giving them the knowledge and skills to:

- Identify various types of influenza strains
- Recognize conditions that create a pandemic
- Recognize warning signs of an influenza pandemic
- Protect themselves and their families against influenza
- Take action if they or their family members get the flu

Railroad Safety Presentations

Presentation Length: 20-40 minutes

FREE

Sponsored by North Dakota Operation Lifesaver

Do you or your employees pass over railroad tracks on your way to work or throughout the work day? North Dakota railroads report many incidents of unsafe motorists around tracks and trains. In 2008, we had 14 incidents at highway-rail grade crossings, resulting in 10 injuries and 3 deaths. Make sure your employees aren't a statistic. Invite North Dakota Operation Lifesaver to your organization, **free of cost**, to provide your employees with the knowledge they need to stay safe around tracks and trains.

Rigging and Signalpersons

Course Length: 8 hours

Member: \$225 Non-Member: \$295

This course is designed to meet the requirements for Riggers and Signalpersons to be qualified under the new rule, 29 CFR 1926, Subpart CC. Course will address safe rigging practices and procedures, methods to calculate sling loading, ASME hand and voice signals, ASME responsibilities of signalpersons, and more.

Safe Kids Car Seat Safety Checkups

Event Length: 2-4 hours

Sponsored by Safe Kids North Dakota

Four out of five car seats are used incorrectly and research shows that motor vehicle crashes are the #1 cause of unintentional injuries and deaths. Help keep your employee's children safe by hosting a car seat safety checkup at your business or in your community. At the checkup, car seat technicians will educate parents on selection of the correct seat for their child and guide them through the installation process.

For more information on hosting a checkup in your area, contact Safe Kids North Dakota by logging onto www.ndsc.org/safekids or calling State Coordinator Serena Schmit at 701-873-2224.

Scaffolds

Course Length: 4 hours

Member: \$95.00 Non-Member: \$115.00

An estimated 2.3 million construction workers, or 65 percent of the construction industry, work on scaffolds frequently. Protecting these workers from scaffold-related accidents would prevent 4,500 injuries and 50 deaths every year, at a savings for American employers of \$90 million in workdays not lost. Although the scaffolding standard covers 22 different types, we will focus on some of the most common such as frame, fabricated and mobile scaffold. Discussion will also take place on various types of aerial lifts.

School Bus Driver Training

Course Length: 3 hours

Member: \$450.00 Non-Member: \$650.00

A minimum of 3 hours of bus driving training is required annually in North Dakota. A defensive driving course is required every 5 years. The North Dakota Safety Council is a reliable and up-to-date resource when it comes to training your school bus drivers.

Supervisory Development

Course Length: 16 hours

Member: \$300.00 Non-Member: \$350.00

Qualifies as
a required course for the
Master of Safety
Certificate!

In today's competitive environment, safety is more important than ever -- and the development of your supervisors and team leaders is a key factor in maintaining a safe workplace. This comprehensive program covers 17 essential topics key to training people in supervisory or team-based leadership positions to create a workforce that makes safety a priority.

Trenching and Excavation

Course Length: 4 hours

Member: \$95.00 Non-Member: \$115.00

This course will describe in detail OSHA's Standard - Subpart P - Excavations. This course includes the definitions to this subpart along with specific excavation requirements, requirements for protective systems, soil classifications, sloping and benching, timber shoring for trenches, aluminum hydraulic shoring, alternatives, and the selection of protective systems. Each participant will receive a copy of the Federal Registry - Excavations.

Trenching and Excavation

Course Length: 2 hours

Member: \$55.00 Non-Member: \$75.00

This course will provide the participants with the "dos and don'ts" of trenching and excavating. Discussion will include the different types of soil classifications and the proper protective systems such as sloping, shoring, benching, and shielding, that are used to protect employees while working in and around trenches.

Welding, Cutting, Brazing

Course Length: 4 hours

Member: \$120.00 Non-Member: \$150.00

This program is designed to help you understand key elements of the welding, cutting, & brazing regulation issued by OSHA. The course will help you:

- Develop the skills to understand key elements of the OSHA welding, cutting, and brazing regulation
- Recognize and correctly use key terms and concepts
- Identify conditions when a fire watch is required
- Identify responsibilities of a fire watch
- Recognize welding, cutting, and brazing special conditions (cylinder storage and confined spaces) that require extra precaution
- Recognize the types of personal protective equipment used for welding, cutting, and brazing

Workplace Safety 101

Course Length: 4 hours

Member: \$95 Non-Member: \$115

The new Workplace Safety 101 is a four-hour class to help you take the first steps in coordinating safety at your business. You'll learn about safety policies and training requirements, record-keeping and how to assess your existing safety program. Walk away with tools such as a sample site inspection form, job safety analysis report, employee safety concern report, hazard assessment worksheet and a sample safety policy statement.

FREE WORK ZONE SAFETY TRAINING

Choose from 5 FREE courses throughout the state in 2011:

Flagger Training - Online or CD/DVD course

This course is recommended for any persons required to perform flagger duties and persons involved in the direct/indirect supervision of flaggers in North Dakota. Flagger training is available at www.ndsc.org and www.agcnd.org. *Take at your convenience!*

Work Zone Safety - 8 hour classroom course

This class is recommended for anyone required to drive, inspect or work in construction work zones.

Traffic Control for Supervisors - 16 hour classroom course

The course is for those construction supervisors involved in street and highway work expected to provide a safe work zone for their employees, their company and the traveling public.

Traffic Control for Construction Workers - 8 hour classroom course

This course is for those individuals involved in street and highway work expected to provide a safe work zone for their company and the traveling public.

Emergency Preparedness in Remote Work Zones - 8 hour classroom course

This course involves hands-on training to prepare construction workers and supervisors how to handle an emergency in a remote work zone.

All courses can be scheduled as a private course for your business, with 10 or more people registered. To view full course descriptions log onto:

www.ndsc.org

Flagger training is available 24/7 for your convenience!

www.ndflaggertraining.com

This free training was made possible through a Susan Harwood Grant from the U.S. Department of Labor's Occupational Safety & Health Administration and the support of the Associated General Contractors of ND.

This material was produced under grant SH-19504-SH9 from the Occupational Safety and Health Administration, U.S. Department of Labor. It does not necessarily reflect the views or policies of the U.S. Department of Labor, nor does mention of trade names, commercial products, or organizations imply endorsement by the U.S. Government.

High Quality Training comes from High Expectations.

At the NDSC, it is our promise to: hire only the best trainers; ensure they are compliant and up-to-date with their training; continuously strive for high quality marks on evaluations; and listen to your needs and respond.

Tyler Svihovec
Safety Consultant
tylers@ndsc.org

Tyler Svihovec earned degrees from the University of North Dakota - Williston and Northern State University

in South Dakota. Svihovec is an authorized OSHA Outreach Instructor in both General Industry and Construction and earned a Master of Safety Certificate and Advanced Safety Certificate from the National Safety Council. Svihovec has more than 10 years experience in Safety and Loss Prevention and has earned the following certifications:

OSHA 500 Certification, Authorized Trainer

OSHA 10 & 30 Hour Construction Industry

OSHA 501 Certification, Authorized Trainer

OSHA 10 & 30 Hour General Industry

Certified Trainer, MSHA

MSHA Part 46 & 48

Certified Instructor and Instructor Trainer

National Safety Council First Aid/CPR/AED

National Safety Council Defensive Driving Course

Advanced Safety Certificate - National Safety Council

Master of Safety Certificate - NDSC

Todd Tavis
Safety Consultant
toddt@ndsc.org

Todd Tavis attended North Dakota State University, Fargo, and gained a degree in Business Administration.

Todd was employed in the mining and heavy highway construction industry for 15 years, as Human Resources Director, including safety and training responsibilities. He conducted site safety inspections at mines and quarries, developed company policies, and provided compliance assistance. Tavis' many years in the safety and human resources field earned him the following certifications:

OSHA 500 Certification, Authorized Trainer

OSHA 10 & 30 Hour Construction Industry

OSHA 501 Certification, Authorized Trainer

OSHA 10 & 30 Hour General Industry

Certified Trainer, MSHA

MSHA Part 46 & 48

Certified Instructor

National Safety Council First Aid/CPR/AED

Certified Senior Professional in Human Resources (SPHR)

Certified Drug Screen Collector

Certified Breath Alcohol Technician

Steve Wienbar
Safety Consultant
steveuw@ndsc.org

Steve Wienbar earned a bachelor's degree from Minnesota State University and an associate degree from

Fergus Falls Community College. Wienbar has 28 years experience as a safety coordinator in the dairy foods manufacturing business and more than seven years experience as a safety consultant. Wienbar has more than 100 hours of training from the National Safety Council and the Minnesota Safety Council and has earned the following certifications:

OSHA 500 Certification, Authorized Trainer

OSHA 10 & 30 Hour Construction Industry

OSHA 501 Certification, Authorized Trainer

OSHA 10 & 30 Hour General Industry

Certified Trainer, MSHA

MSHA Part 46 & 48

Certified Instructor and Instructor Trainer

National Safety Council First Aid/CPR/AED

National Safety Council Defensive Driving Course

Certified SafeStart Trainer

Serena Schmit
Marketing / Home & Community Coordinator
serenas@ndsc.org

Serena Schmit graduated from Minnesota State

University Moorhead in May of 2008 with a degree in public relations and advertising. She coordinates two of the NDSC's statewide programs, Safe Kids and Operation Lifesaver, and assists with all aspects of marketing for the NDSC, including web updates, design, promotions and events. Since her start at the NDSC, Serena has earned the following certifications:

Operation Lifesaver Railroad Safety Presenter

Kevin Stewart
First Aid and Membership Coordinator
kevins@ndsc.org

Kevin Stewart earned a bachelor's degree in political

science and criminal justice from Moorhead State University. Stewart has developed, organized and conducted training programs for the general public and for private businesses on safety, health and disaster issues. He has 23 years experience as a first responder and Emergency Medical Technician and is an instructor and instructor trainer for CPR/AED/First Aid. Many Ways To Train!

- 1. Public Courses** - Choose from more than 50 different safety training courses, offered by the North Dakota Safety Council. A variety are offered many times per year at convenient locations across the state.
- 2. Private Courses** - Our experienced, certified experts will train your employees at YOUR business, allowing you to maximize your time in the office and minimize employees' time away. **Stretch your training dollar!**
- 3. Video-based Training** - 40 NEW VIDEOS COMING SOON! Members have access to our video library containing more than 500 industry-specific videos and DVDs to train, educate and promote safety and health. The full video list is online at www.ndsc.org. Check out a video by calling 701-223-6372. We'll mail them anywhere in the state for a minimal fee. Some of our courses are also available in CD/DVD. Purchase a program and utilize your own staff trainers to teach your employees. Each video-based program includes a fully-scripted leader's guide and employee workbooks.
- 4. Online Training** - NDSC offers more than 150 online training courses! You'll find courses in Healthcare, Traffic Safety, Emergency Care, Industrial Skills, Drug & Alcohol Awareness, Human Resources, as well as OSHA Construction, General Industry, Outreach & Hazardous Waste. Courses can be accessed through our web site at www.ndsc.org.
- 5. Conference Courses** - Nearly sixty educational sessions are taught by instructors from across the nation at the the largest safety & health conference in North Dakota, South Dakota and Montana! Nearly 600 attend annually to participate in the training, network with colleagues and learn about new safety techniques and services. Watch www.ndsc.org for announcements regarding this early spring event. Members attend at a reduced rate.
