

Help us make North Dakota the Safest State in the Nation

ND LEADS THE NATION IN BINGE, UNDERAGE DRINKING

Binge Drinking is defined as five or more drinks at a time for men, four or more drinks for women. North Dakota ranks first in Binge Drinking for teens (2000).

North Dakota car crash expenses cost the state more than \$300 million annually.

In North Dakota, the cost for each injured survivor of an alcohol-related crash averages \$67,000, including \$6,000 in health care costs and \$13,000 in lost productivity.

Alcohol-related crashes accounted for an estimated 14% of North Dakota's auto insurance payments.

Reducing alcohol-related crashes by 10% would save \$7 million in claims payments and loss adjustment expenses.

- North Dakota Department Of Transportation

By working with public health units we can address this problem on a community level with **Responsible Beverage Server Training**.

Every server, owner or manager of an establishment that serves or sells alcohol can benefit from RBS Training. The goal will be to help prevent the over selling and over consumption of alcohol within their establishment by giving them the tools to identify potential underage customers, false ids and common signs of over consumption.

THE 3 LEVELS OF SERVER TRAINING:

1. Responsible Beverage Server - Basic
2. Responsible Beverage Server - Large Events
3. Responsible Beverage Server - Owners & Managers

DEVELOPING THE INSTRUCTOR BASE:

The NDSC wants to partner with you to identify and train Responsible Beverage Server instructors across the state.

Call us today to learn more about the NDSC's new Responsible Beverage Server Training.

To learn more about implementing the NDSC's Responsible Beverage Server Training, contact Kathy at (701) 751-6105 or kathy@ndsc.org
