

NORTH DAKOTA SAFETY COUNCIL

FIRST AID & CPR

WORKPLACE

Training employees in first aid benefits your bottom line.

As North Dakota's training experts, the NDSC's mission is to prevent injuries and save lives. Few things more directly impact that mission than our nationally recognized, certified First Aid, AED and CPR training for the workplace.

Nearly
13,000 workers are injured
on the job each day.

The average cost of a disabling
injury is
\$40,000

Employers pick up
80% of these expenses,
which can include:

- Lost work time
- Increased insurance premiums
- Increased workers' compensation expenses
- Increased liability risk
- Legal costs

SAVING LIVES IN EVERY INDUSTRY

- Energy
- Utilities
- Manufacturing
- Construction
- Transportation
- Warehousing

BENEFITS OF NDSC WORKPLACE FIRST AID, CPR AND AED TRAINING

- Exceeds OSHA requirements
- In-depth, comprehensive, and nationally recognized courses
- Protects the lives and health of your employees and customers
- Highly experienced instructors with outstanding evaluation scores
- Training customizable to any industry and provided onsite as needed.

AED DEVICES, ACCESSORIES, UPKEEP AND TRAINING FROM THE NDSC

Using CPR and an AED to treat someone before EMS arrives can double or triple survival rates!

We'll help you find the AED that fits your business, then we'll set it up, service it and train your team to use it. And our free, comprehensive AED checkups ensure you have a successful and life-saving AED program in place.

Call (800) 932-8890 for a free consultation or visit ndsc.org/safety-services/aed-checkups

Purchase AEDs, first aid supplies and more directly from NDSC!

CPR/FIRST AID INSTRUCTOR TRAINING

The NDSC can train your employees to teach CPR/First Aid. Investing in an instructor:

- Shows your investment in your employees' wellbeing
- Allows you to customize training to your organization's needs
- Saves you up to \$2600 per year for every 100 employees trained.

OSHA Standard 29 CFR 1910.151

"In the absence of an infirmary, clinic or hospital in close proximity to the workplace, as person or persons shall be adequately trained to render first aid. If an employee is expected to render first aid as part of their job duties ...the employer shall provide annual training for each employee with occupational exposure in accordance with the requirements.

Three categories of first aid training are needed, and all industries fall into one of these categories. Establishing a CPR/AED program at all worksites ensures all employees are protected in case of a potential life-threatening situation."

With NDSC First Aid training, you'll know how to help when help is needed. Enroll in a class today!
