

NORTH DAKOTA SAFETY COUNCIL

WORKPLACE SAFETY

Every year, employees get injured due to preventable incidents on the job.

4,572 PREVENTABLE WORK DEATHS
occurred in 2019, up 17% since 2010.

Source: National Safety Council

The North Dakota Safety Council can help your organization reduce employee risk, increase compliance and productivity and (most importantly) keep people safe!

WORKPLACE TRAINING COURSES

Defensive Driving Courses

Motor vehicle collisions are the leading cause of death and injury in the workplace. Save lives, save money and save time by enrolling your team in our Defensive Driving courses.

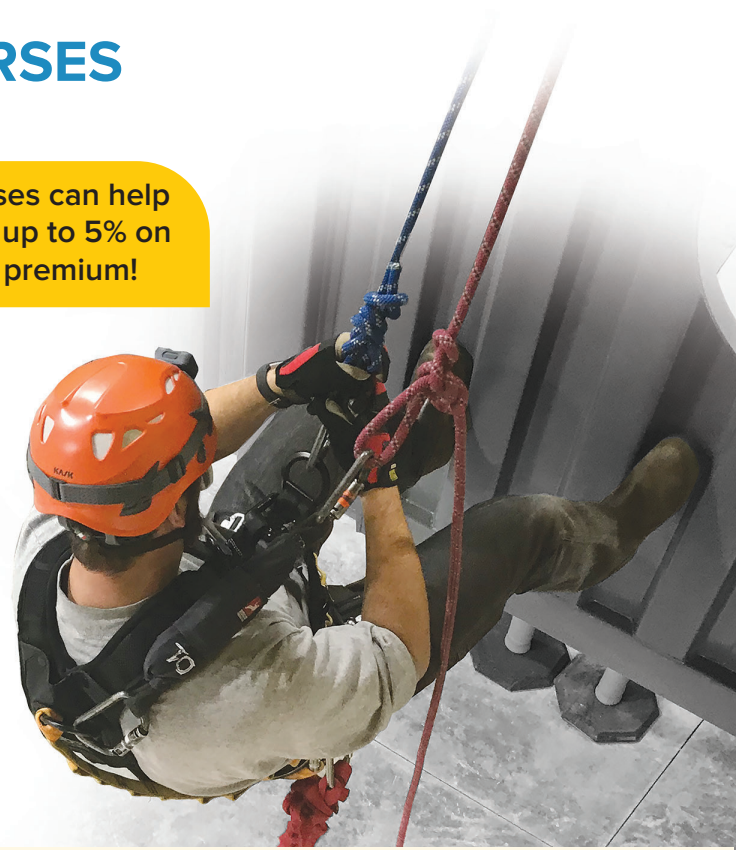

- Defensive Driving
- Adverse Weather Driving
- DOT Compliance
- DOT Hazmat
- Professional Truck Driving

Our courses can help you save up to 5% on your WSI premium!

Emergency Response Courses

- **Basic First Aid/CPR** for frontline workers (meets OSHA First Aid standards).
- **Emergency Rescue** for municipal and industrial rescue teams.
- **Emergency medical responders** specialty courses.
- **Violence preparedness training** for schools, churches, retail and industrial settings.
- **Industry-specific courses** designed to meet your organization's needs.

Industry Training

- **OSHA courses** – From OSHA 10 and 30 to excavator training and HAZWOPER courses, we keep you compliant.
- **MSHA courses** – Ensure your team is fully trained in Part 46, Part 48 and more.
- **Oil & Gas Training** – Process safety, hazards standards, One Basin One Way and more.
- **Equipment Operations** – Backhoes, aerial booms, forklifts and scissor lifts training for technicians. Instructed by IVES.
- **Construction Compliance** – Courses cover everything from trenching to lockout/tagouts.
- **General industry Compliance** – Topics to stay safe and ensure compliance.
- **Safety Management** – Ensure safety with courses ranging from ergonomics to OSHA standards.
- **Emergency Operations Planning** – Learn how to handle nearly any emergency workplace situation.
- **Reasonable Suspicion** – What to look for, and what to do if someone seems unfit for duty.
- **Opioid Awareness** – Steps to take when you suspect use, and resources for safety and intervention.
- **Responsible Beverage Serving** – Server training and safe practices wherever alcoholic beverages are served.
- **Safety Orientation** – Specially designed programs like One Basin One Way and Occupational Safety Councils of America (OSCA).

Career-building Safety Certificates

- **Advanced Safety Certificate (ASC)** – The National Safety Council's Advanced Safety Certificate Program develops high potential employees into safety practitioners. Students learn to quickly identify hazards and implement corrective actions, think critically about safety, and solve occupational safety problems.
- **Certified Occupational Safety Specialist (COSS) Certificate** – This 40-hour training program builds a solid foundation in both General Industry and Construction knowledge. Students gain core competencies to be successful in occupational safety and health. Great for entry level employees or those needing a refresher.

Train Your Trainers

Bring your training in-house with our wide range of Train the Trainer programs in First Aid/CPR, driver safety, equipment certification and operations and OSHA Compliance.

WORKPLACE SAFETY SERVICES & CONSULTING

- **Risk Assessments** – Identify the risks that make your workplace vulnerable.
- **Emergency Operations Planning** – All facilities face a certain level of risk, the NDSC can help your organization manage yours.
- **Site Safety** – During special projects, maintenance shut-downs or as temporary help, our team can manage your site's safety, so you can focus on the work at hand.
- **Quality Safety Management** – No safety manager? No problem. Put your safety management into the hands of our qualified team.
- **Safety Plans** – We'll help you create a plan that protects employees, reduces risk, and establishes a culture of safety.
- **Consulting** – Our safety consultants can guide you through regulatory compliance and injury prevention strategies to keep your staff safe and on the job.
- **AED Checkups** – Free, comprehensive AED checkups for a successful and life-saving AED program.
- **Spanish Interpretation** – NDSC offers Spanish language training and interpretation.

Meet the OSHA First Aid Standard with the NDSC

Many programs don't offer the comprehensive training needed to meet OSHA First Aid Standard 29 CFR 1910.151. Our training meets this standard, as well as the latest CPR and first aid guidelines, and courses can be customized to meet the specific needs of your industry.
